Bill Summary

*(Note: This summary applies to this bill as introduced and does not necessarily reflect any amendments that may be subsequently adopted.)*

Requires each school district to appoint a person to act as the child welfare education liaison for the district, and specifies the liaison's duties. When a student in out-of-home placement ("student") transfers from one school to another, requires the school district or school to transfer the student's records within a specified number of days after receiving a request for transfer from the county department of social services ("county department") that has legal custody of the student. the school district or school may comply with the transfer requirement by releasing the student's records to a county department employee for the sole purpose of transferring the records to the new school. Prohibits the school district from delaying the transfer of the student's records for any reason.

Requires a school district or school to immediately enroll a transferring student regardless of whether the school district or school has received all of the student's records, the student can comply with any school uniform requirements, or the student can comply with any other preenrollment requirements. Requires the school to suspend a student if it does not receive the student's immunization records within a specified number of days after the student enrolls and to so notify the student's legal guardian.

When a student transfers, requires the sending school to certify to the receiving school the course work that the student has fully or partially completed. Requires the receiving school to accept the student's certified course work as if it had been completed at the receiving school and to apply all of the student's certified course work toward completion of the student's requirements for continuing to the next grade or for graduation.

Provides that a student shall receive an excused absence for any time the student is out of school due to a required court appearance or participation in court-ordered activities, and directs the social worker assigned to the student to verify the absences.

Requires a school to waive all fees for a student and prohibits the school from limiting the student's opportunity to participate in activities because of the fee waiver.

If a county department recommends an out-of-home placement for a child or a change in placement, requires the parties to the proceeding to promote educational stability for the child by taking into account the child's existing educational situation and selecting a change of placement that would enable the child to remain in the existing educational situation or transfer to a similar situation.

Makes conforming amendments.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly  
3 hereby finds that:

4 (a) Children who are in out-of-home placements, including but not  
5 limited to foster care placements, deserve access to the same  
6 opportunities that are enjoyed by other students to:

1 (I) Meet the academic achievement standards to which all students  
2 are held;

3 (II) Maintain stable school enrollments;

4 (III) Be placed in the least restrictive educational environments;  
5 and

6 (IV) Have access to the same academic resources, services, and  
7 extracurricular and enrichment activities;

8 (b) In determining school and other educational placements for a  
9 child in an out-of-home placement, the placing authority's decision should  
10 be driven by consideration of the best interests of the child, including the  
11 child's best interests with regard to education;

12 (c) Too often, children in out-of-home placements are transferred  
13 from one educational situation to another with little consideration of the  
14 effect on the child's ability to advance academically or to achieve the  
15 educational standards that are required by the state, with the result that an  
16 unacceptably high percentage of children in out-of-home placements  
17 perform poorly on statewide assessments, drop out of school prior to  
18 graduation, and do not seek education beyond the secondary level; and

19 (d) State and local child welfare agencies and school districts must  
20 be required to increase their level of communication and coordination  
21 with regard to transfers of children in out-of-home placements between  
22 and among educational placements, including but not limited to the  
23 transfer of records, the transfer of educational credits, and the expedited  
24 enrollment of these children, in order to improve the level of service  
25 provided to these children and to increase their ability to achieve success  
26 as fully contributing and participating adult members of society.

27 (2) The general assembly therefore finds that it is in the best

1 interests of the state to support the rights of children in out-of-home  
2 placement to educational opportunities and stability by enacting this act.
