A BILL FOR AN ACT

CONCERNING FACILITATING THE INTEGRATION OF INTERNATIONAL MEDICAL GRADUATES INTO THE COLORADO HEALTH-CARE WORKFORCE.

Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at http://leg.colorado.gov.)

Section 1 of the bill makes legislative declarations and findings regarding the shortage of health-care providers in the state, the presence of qualified, internationally trained medical professionals in the state, the ability of those professionals to assist the state in addressing health-care workforce needs, the barriers to entry into the health-care workforce these
professionals face, and the need to reduce those barriers to facilitate the integration of these professionals into the state's health-care workforce.

Section 2 establishes the following 2 programs in the department of labor and employment (CDLE) to assist international medical graduates (IMGs) seeking to integrate into the state's health-care workforce:

- The IMG assistance program, the purpose of which is to provide direct services to IMGs, including a review of an IMG's education, training, and experience to recommend appropriate next steps for integrating IMGs into the state's health-care workforce; technical support through the credential evaluation process; and scholarships to assist in defraying the medical licensure process; and

- The clinical readiness program, the purpose of which is to provide curriculum for and assessments of IMGs to help them build the skills necessary to enter a medical residency program.

Section 2 also directs the executive director of CDLE to include in its annual report to the general assembly pursuant to the "State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act" information about the IMG assistance program, the clinical readiness program, and any progress made in addressing barriers IMGs face in securing positions in medical residency programs.

Section 3 authorizes the executive director of the department of regulatory agencies (DORA), subject to available funding, to award funding to medical residency programs to provide additional residency positions dedicated to qualified IMGs and directs the executive director of DORA to report on any funding awarded for this purpose as part of DORA's annual report to the general assembly pursuant to the "State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act".

With regard to requirements for licensure under the "Colorado Medical Practice Act" (act):

- Section 4 defines "IMG" for purposes of the act;
- Section 5 reduces the length of postgraduate clinical training that an IMG must complete to qualify for a medical license from up to 3 years to one year; and
- Section 6 allows an IMG to obtain a reentry license if the IMG has a current or expired international medical license and meets Colorado medical board-specified qualifications and requirements, including an assessment of the IMG's competency to practice.

**Be it enacted by the General Assembly of the State of Colorado:**

HB22-1050
SECTION 1. Legislative declaration. (1) The general assembly finds that:

(a) A 2020 study by the Association of American Medical Colleges estimates that the United States could see a shortage of between 54,100 and 139,000 physicians by 2033;

(b) By 2030, Colorado is expected to have a statewide shortage of over 2,400 physicians;

(c) As of January 2022, Colorado has 123 areas designated as primary care health professional shortage areas;

(d) As of 2017, there were approximately 3,000 immigrants in Colorado whose health-related undergraduate degrees were underutilized, 2,000 of whom received their education outside of the United States;

(e) Between 1,200 and 1,900 patients can be served for each additional physician that is added to Colorado's workforce; and

(f) According to the National Resident Matching Program:

(I) In 2021, international medical graduates (IMGs) represented 21% of medical residency matches nationwide compared to only 4.2% in Colorado; and

(II) Only 2.5% of IMGs matched to a Colorado residency program in the past decade.

(2) The general assembly further finds and declares that:

(a) Colorado faces an ongoing shortage of physicians, while, at the same time, Coloradans who received their medical degrees and training and practiced as licensed physicians outside of the United States are underutilized and face prohibitive barriers to joining the health-care workforce in Colorado;

(b) Supporting the integration of IMGs into the Colorado
health-care workforce helps Coloradans across the state and increases access to qualified providers;

(c) IMGs are uniquely situated to use their diverse backgrounds, experiences, language, and cultural skills to provide enhanced care to diverse patients and communities;

(d) At the request of the governor and 12 state legislators, the nurse-physician advisory task force for Colorado health care (NPATCH) examined the issue of licensure pathways for IMGs and issued its recommendations on August 6, 2021; and

(e) In order to help address health-care provider shortages in the state and position Colorado to benefit from much-needed and unrealized medical expertise in local communities, it is important to enact policies to provide qualified IMGs a pathway to licensure and into the state's health-care workforce.
